M John Rose1	Waiting for replies from Bright and Max concerning the emails. Daniel, what do you have to say about where we are and where we are going?
M hen	I have sent my reply about the emails, I said its ok with me and my

With Internet – Can Chat (Read & Write)

No Internet – Can Only Read

World Space CLASS Listener – Interactivity

(Possible for sites with Internet Connection)

The screenshot shows the CLASS Listener application window. The title bar reads "CLASS Listener". The address bar shows the URL: "jarfile:/C:/Program Files/WorldSpace/Datacast/received/director...". The main content area displays a list of messages with the following text:

- All of us working on the ground are "experts"
 - We
- There is
 - We
 - The
 - Poir
- Lecture**
- Lecture thinking
- Lecture difficult

A "Reply to Message" dialog box is open over the messages. It has a "Destination:" dropdown menu set to "ALL USERS". The "Reply to message from:" field contains the following information:

NickName : polly
FullName : polly
Email : polly@nambu.uem.mz
Address :

Below this field is a section for the "Original Message" with a checked "Delete after reply" option. The message text reads:

I don't think it makes much sense for me to say anything now. It doesn't seem necessary to repeat the lecture because enough people got it. Better John speak to give info and instructions on next session (emphasising time and DATE) for possible audio listeners? And generally say what's happening? Until I get some feedback maybe by email or something, nothing to add.

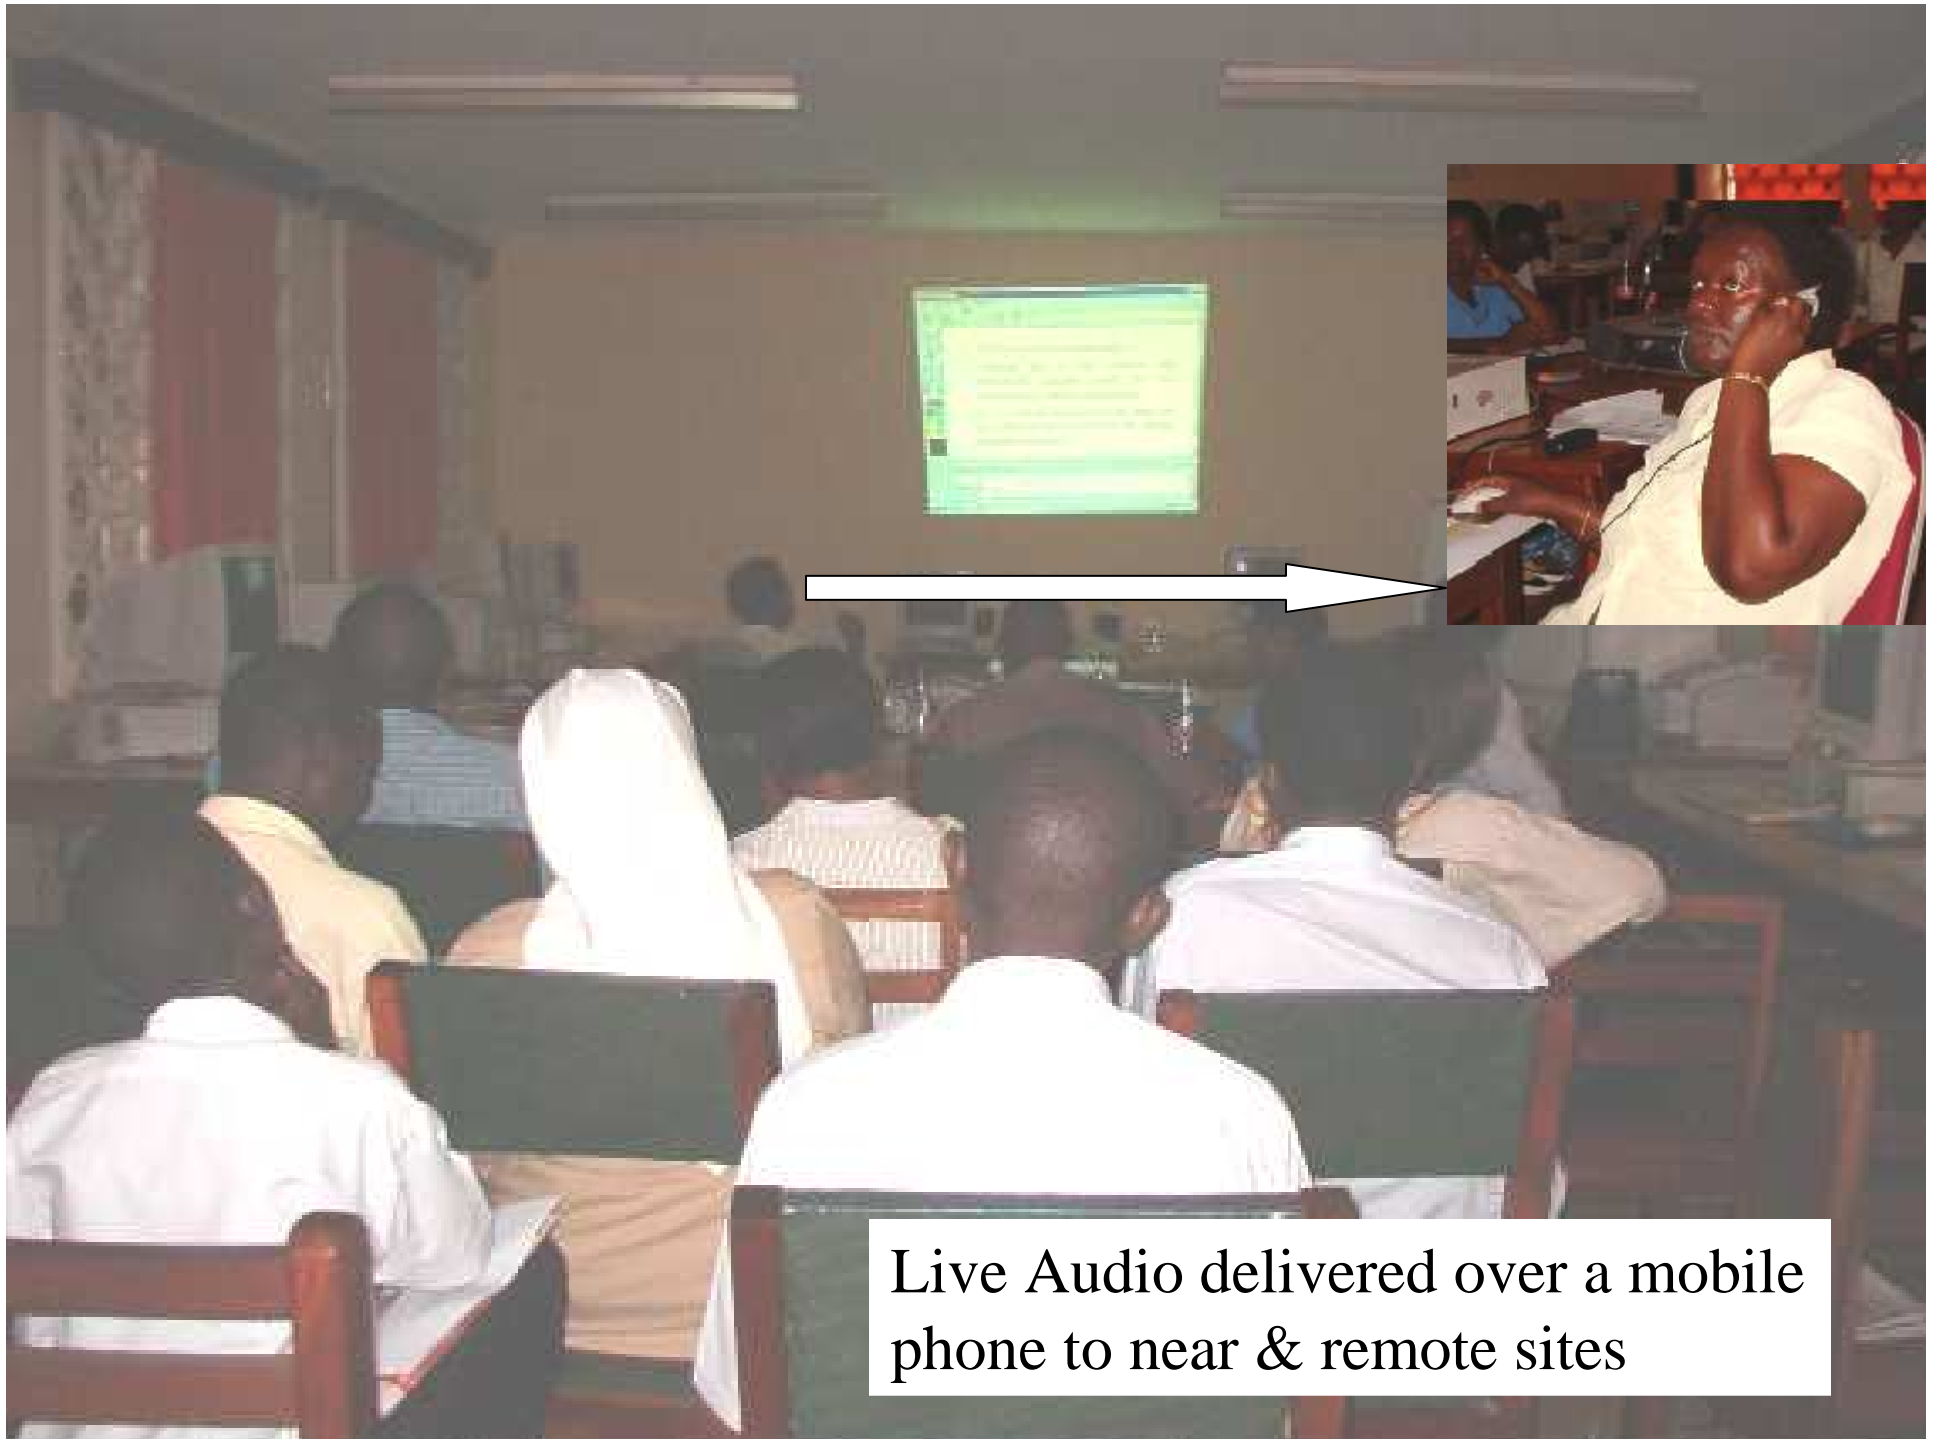

At the bottom of the dialog are "SEND" and "CANCEL" buttons.

At the bottom of the application window, there is a "Question:" table with the following entries:

Question:	Message
	M jerome how many computers do you have connected to the Internet ?
	M polly I don't think it makes much sense for me to say anything now. It lecture because enough people got it. Better John speak to give i (emphasising time and DATE) for possible audio listeners? And gen some feedback maybe by email or something, nothing to add.

On the left side of the application window, there are buttons for "REPLY", "MESSAGE", and "QUESTION".

Live Audio delivered over a mobile phone to near & remote sites

CLASS Speaker – What the Speaker/Teacher sees on the Computer

CLASS Benefits

Institutions:

- Reduced costs of installation, maintenance and operations, lower cost per student
- Scalability to reach regions traditionally difficult to access.

Instructors/Teachers

- Ability to create distance education classes using current teaching styles and materials
- Ability to delivery multimedia presentations and supplementary information critical to enhance students' learning experience.
- Responding to Students' questions interactively

Learners/Students

- Opportunity to experience from home live lectures from the best teachers with no telephone or Internet connection
- Interactive learning experience with combined audio and multimedia presentations
- Capability to review presentations and supplementary information at leisure (the entire presentation is locally cached)
